

Company Profile: Infocentric Solutions Inc.

Your Partner in Identity Security

Company Overview:

Infocentric Solutions Inc., founded in 2011, pioneered Identity Governance and Administration (IGA) in the Philippines alongside Privileged Access Management (PAM) and Access Management (AM) and is part of a bigger and exciting group called the Centric Group of Companies.

Major Achievements:

We helped many organizations realize their identity security initiatives from the largest television network, biggest financial institution, largest e-wallet, 40% of top banks in the Philippines, the biggest telecommunications company, and top conglomerate in the country to start.

Our Unique Value Proposition:

We are the only identity security company in the Philippines with local certified consultants who have rolled out successful identity security projects over the years. This means we deliver your projects locally and work with local resources, which our customers enjoy.

Our Identity Core Solutions:

Solutions	Description
<i>Identity Governance and Administration</i>	<i>Streamline and secure digital identities across your organization with our IGA solutions. Enhance security, ensure compliance, and reduce data</i>

	<p><i>breach risks while managing access rights efficiently.</i></p>
<p><i>Privileged Access Management</i></p>	<p><i>Protect your most sensitive data and infrastructure with PAM. Manage and monitor privileged accounts to prevent unauthorized access and cyber threats, maintaining the integrity of your operations and services.</i></p>
<p>Access Management</p>	<p>Facilitate seamless and secure access to applications and data with our AM services. Implement technologies like single sign-on (SSO) and multi-factor authentication (MFA) to boost efficiency without sacrificing security.</p>
<p>Support and Managed Services</p>	<p>Ensure your identity and access management solutions are always at peak performance with our expert support and managed services. Benefit from local, certified consultants who provide tailored support, allowing you to focus on your core mission.</p>
<p>IT Infrastructure and Consultancy</p>	<p>Infocentric Solutions Inc. offers robust IT infrastructure and consultancy services, specializing in network architecture, cloud solutions, and cybersecurity. Our expert team designs, implements, and manages scalable IT environments tailored to enhance operational efficiency and security for businesses poised for digital transformation.</p>
