Network Access Control

Unlocking Secure and Efficient Network Management

At Infocentric, we understand the paramount importance of securing your network while ensuring seamless connectivity and optimal performance. Our Network Access Control (NAC) Solutions are designed to provide you with advanced security measures and effortless management, ensuring your network remains a stronghold against modern cyber threats.

Our Comprehensive NAC Solutions

Access Policy Control:
Set granular access policies based on user roles, device types, and location, ensuring the right level of access for every user and device.

Device Profiling:
Automatically identify and categorize devices connecting to your network, allowing you to manage and secure them more effectively.

Guest Network Management:
Provide secure guest access without compromising internal network integrity, enhancing visitor experience while maintaining data security.

Threat Detection and Response:
Real-time monitoring and threat detection mechanisms enable swift action against potential breaches, keeping your network safe from evolving cyber threats.

Compliance and Reporting:
Generate detailed compliance reports to meet industry regulations and internal policies, ensuring a transparent network security posture.

Why Choose Infocentric?

Expertise & Excellence: Leverage our deep expertise in networking technologies and solutions for unmatched outcomes.

Cutting-Edge Innovation: Embrace the latest advancements to stay at the forefront of modern networking.

Performance & Reliability: Enjoy uncompromised reliability, scalability, and performance for your enterprise network.

Simplified Management: Our solutions simplify complex networking tasks, empowering your IT team.

Tailored Solutions: We customize offerings to align with your unique enterprise requirements and aspirations.

Support: Experience dedicated support, ensuring prompt assistance and strategic guidance.
