IGA Delivery Packages Assumptions

Assumptions taken into consideration for the delivery packages

- 1. IIQ will use out of the box connectors with minimal configurations**
- 2. No APIs or Stored Procedures will be developed by Infocentric**
- 3. IIQ will use out of the box business process workflows based on industry best practices**
- 4. Duration computation assumes that all data needed by the implementation team is already provided by the clients and there are no delays on their end.**
- 5. Infra set-up will be done by the Client; IIQ base governance platform will be installed by Infocentric**

**Got questions?
We'd love to answer them for you!**
